agroecology transect

Co-funded by the European Union

OUR GOAL ?

Support you, other initiatives and policy makers on the road to agroecological transition !

Survey results will help us:

- Understand the **diversity** of agroecology in Europe
- Identify **optimal conditions** for the development of agroecology

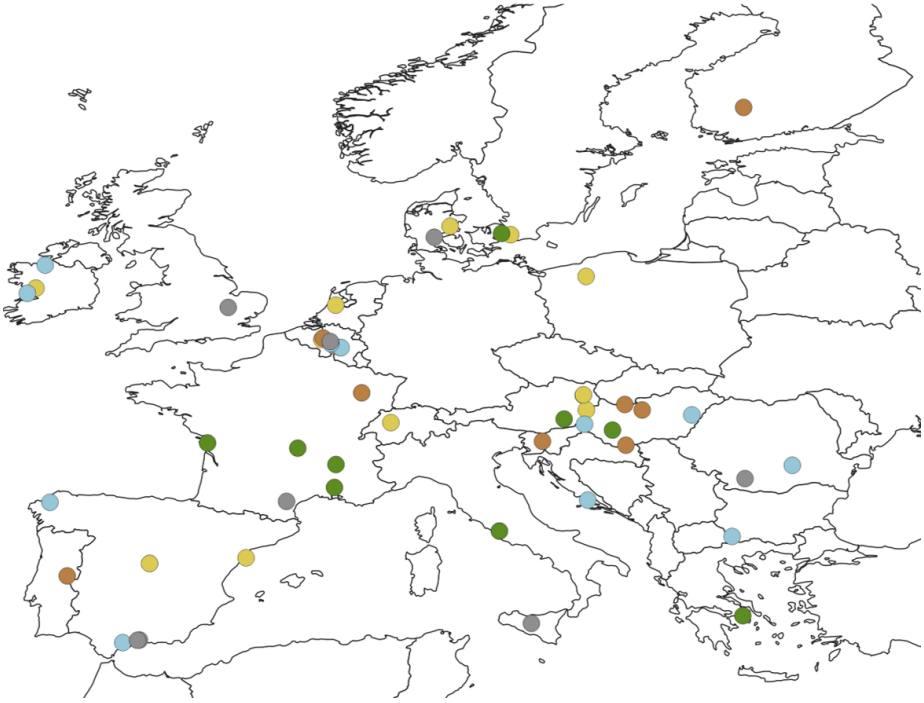

WHAT IS IN IT FOR YOU ?

- **Connect** with other agroecological intiatives in Europe
- Be informed of the **results of the project**

WHAT IS THE SURVEY ABOUT ?

We will ask **information on your initiative** (who is involved ? what are your activities ? how do you work ? ...), your **context** and **what influences your development**.

The survey will take a maximum of **25 minutes** to complete. The information collected will be analysed, anonymised and compiled into an **online public database.**

LAST SUMMER, MORE THAN 50 INITIATIVES FROM ALL ACROSS EUROPE JOINED THE SURVEY!

WHO ARE WE ?

The survey is conducted by the **Walloon Agricultural Research Center** (Belgium) in the framework of the project **agroecology-TRANSECT** which is dedicated to agroecology and involves 11 Innovation Hubs and 19 partners in 12 countries.
